AVS PHOTOGRAPHIC SOCIETY  
(THE ASSAM VALLEY SCHOOL)

# POINT OF VIEW

Sooryansh Prithani, Mahi Poddar, Iasa Sangma (Class 12)

"A creative photographer is one who either captures mystery or reveals things, everything else is useless." - Raghu Rai

Beyond the demands of a steady hand and a clear eye, it is the sensitivity of the creative photographer that is reflected in his art; piece is a portrait of himself.

The Photographic Society of The Assam Valley School focusses on not just honing the basic skill-set of the students, but also on introducing and exploring the artistic magnificence that lies in the little things that make life worthwhile. We are often found capturing moments that go unseen by the common eye, and giving them a tangible existence in which they defy the ravages of time.

As you flip through this month's edition of 'Perspective', we assure you that it will transport you into a realm of silence; not because the images are inadequate, but because with pictures as beautiful as these, words will always fall short of attributing to them the value they deserve.
