## ADMISSION TO THE ISC PROGRAMME APRIL 2026

Dear Parent,

Greetings from The Assam Valley School!

Please be so kind as to find enclosed the Subject Options Form for Class XI for the Academic Year 2026-27 for the **two-year ISC Curriculum**, commencing in April 2026 and concluding in April 2028. We do believe that every child has his/her own abilities and interest, so we suggest that you discuss these subject options with your child keeping in mind his/her interest.

Following in-depth research in to the complex educational and career scenarios available in today's world, we are pleased to offer our pupils a wide spectrum of interdisciplinary subject options in keeping up with global educational and career trends. It has been clearly established that when pupils make subject choices based on their aptitudes and interests their performance is far superior and remain happier with their career choices.

### SUBJECT STREAMS OFFERED TO CLASS 11 (April 2026 - April 2028)

Compulsory	Elective I	Elective 2	Elective 3	Elective 4
English	Physics/ Accounts / Political Science/ Sociology	Chemistry/ Commerce/ History/ Geography/ Art	Mathematics/ Applied Mathematics/ Geography/ Biology /Business Studies/ Hindi/ Sociology/ Mass Media and Communication/ Home Science	Biotechnology/ /Environmental Science/ Psychology/ Economics/ Computer Science/ Physical Education/ Art/ Mathematics

As can be seen above, multiple choices and abundant combinations are offered as there are no strict regulations where a student must choose subjects within a specific stream. In today's world, top universities have moved towards a more liberal approach to subject combinations, where, skill development and interdisciplinary understanding are given utmost importance. Similarly, keeping to a similar theme, MNCs and other big employment houses are also looking at graduates who have acquired skills rather than knowledge, for the reason that knowledge exists on the tip of everyone's fingers through a multitude of technologically advance interconnected devices and the internet.

However, specific subject combinations are still suggested and recommended when someone is aiming for a Technical or MBBS degree or has an interest in Business or Commerce or specific colleges or courses where certain subject combinations are a prerequisite. *Please also see a further breakdown of the subject combinations based on specific stream interests.*

**SUBJECT STREAMS OFFERED TO CLASS 11 (April 2026 - April 2028)**
